EDUCATION:

Georgia Institute of Technology, Atlanta, GA

August 2016 – Present

- Candidate for Bachelor of Science in Computer Science
- Threads in Intelligence and Modeling / Simulation, Minor in Spanish
- Honors Program
- Stamps President's Scholar

Expected Graduation: May 2020

GPA: 4.0

Holy Innocents' Episcopal School, Atlanta, GA

August 2012 – May 2016

PROJECTS:

Automated Algorithm Design Research

January 2018 – Present

- Implemented sentiment analysis pipeline to analyze news articles to aid in predicting stock price movements using Genetic Algorithms. Current project is to visualize the genetic algorithm evolution process.

Atlanta Crime Map

January 2018 – Present

- Leading a team as part of Data Science Club at GT to create a predictive policing tool to help the campus police department in using their data to predict crime in and around campus.

Citadel Datathon

February 2018

- Created paper about how to make cities safer at Citadel and Correlation One's Datathon at Georgia Tech by using Machine Learning tools like scikit-learn to draw insights from various datasets. Team placed top 3.

JIRA Voice

October 2017

- Created category-winning Amazon Alexa skill using Amazon AWS and NodeJS to connect to Atlassian's JIRA Agile management software to allow for verbal control of team management at HackGT.

RECONSO Research

February 2017 – December 2017

- Developed interface between core state machine and battery systems on Avionics team of student-led cube satellite project. Learned C while working on project.

WORK & EXPERIENCE:

Ultimate Software Weston, FL

May 2018 – August 2018

Software Development Intern, Innovation Strategies Team

- Designed and developed a Slack app for the UltiPro HR management tool that allows users to perform core functions like requesting time off and giving feedback directly from Slack. Currently in beta with 30,000+ users.
- Used Typescript, NodeJS, MongoDB, Restful API, and unit testing frameworks.

The Home Depot Atlanta, GA

May 2015 – August 2015

Software Development Intern

- Developed Web App for tracking candidate progress throughout the hiring process for internal HR use.
- Worked in Java, HTML5, CSS, JavaScript, MySQL, and related technologies.

LEADERSHIP & ACTIVITIES:

Stamps Scholars National Convention – Threads Co-chair

January 2018 – Present

- Executive board member of Stamps Scholars National Convention, a 3-day conference with over 700 student attendees.
- Responsible for 20-person committee that plans and coordinates the different content threads of the convention.

Undergrad Teaching Assistant

August 2017 – Present

- TA for CS4400 – Intro to Database Systems focusing on relational database design and SQL.
- Responsibilities include office hours, grading, and project creation.

SKILLS:

Languages: Python, Java, C, MySQL, HTML, CSS, JavaScript (with jQuery and D3), Typescript

Programs & Frameworks: macOS, Microsoft Windows, Ubuntu Linux, Tableau, Git, Scikit-learn

Relevant Coursework: Machine Learning, Deep Learning, Computer Architecture, Computer Networking, Algorithms

Foreign Languages: Advanced Spanish
